

REMARKS

I. STATUS OF CLAIMS

Claims 21-30 are pending. Without prejudice, claim 21 has been amended to correct a lack of antecedent basis. No new matter has been added.

II. INDEFINITENESS REJECTION

The Examiner has rejected claims 21-30 under 35 U.S.C. § 112, second paragraph as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In particular, the Examiner states that the phrase “the small scale apertures” of claim 21 lacks antecedent basis.

Applicants have amended claim 21 to replace “the small scale apertures” with “the apertures of the resilient three dimensional film” as per the Examiner’s suggestion. Accordingly, this rejection should be withdrawn.

IV. CONCLUSION

In view of the above claim amendment and remarks, the present application is believed to be in condition for allowance and an early notice thereof is earnestly solicited. The Office is invited to contact the undersigned counsel in order to further the prosecution of this application in any way.

Respectfully submitted,

/Marc S. Segal/
